

## Ashes from Belzec. Willie Glaser's travels in Poland 2008 Part I: In the town of Oswiecim (Auschwitz)

For the past two years I have been corresponding with Dr. Arthur Szyndler from the Jewish Center Oswiecim about genealogical research. He was very helpful in the past and again during my visit.

The center is housed in the only synagogue left standing. The German military used it as a ammunition depot, because it is a freestanding building.
